

THANK YOU FOR YOUR SUPPORT

by Hart Humble, Business Development at Socius

Twas the new month of March
And all seemed quite normal
At least in the States
No precautions were formal

But things started changing
And it started out West
You must shelter in place
If you know what is best

San Francisco was shuttered
Then New York, and L.A.
Texas, and Florida,
Most states would obey

So COVID would change
How our workplace would look
It would change how we dress
How we wash, how we cook

Our kids all came home
From grade school, and college
Dependent on us, now
For transfer of knowledge

As we work from our houses
Our garages, our room
As we do conference calls
And adapted to ZOOM

As we check all our quotes
For exclusions to appear
Or have quotes withdrawn
No extensions next year

As premiums creep higher
And deductibles follow suit
As capacity gets tighter
As old quotes are now moot

When customers clamor
That revenues are dropping
And don't realize claims
Are surely not stopping

As markets all harden
And some go away
Or withdraw certain products
Not comfortable, they say

When questions arise
And you need a fresh ear
To help you or counsel
What you're seeing or fear

We're here! That we promise
Just give us a call
We're in this together
For one and for all

We do hope this ends soon
Our sanity can't take it
We know we'll get through this
Much stronger, we'll make it

So while lounging or working
At home with your families
In T-shirts, or skivvies
In shorts, or your jammies

Be kind to your neighbors
Your family and friends
Allow each his opinion
On how this should end

We pray this ends quickly
But if it takes longer
Remember that what
Doesn't kill, makes us stronger

For I truly believe that
Our common goals are great
Don't dwell on our differences
Show love now, not hate

And remember that Socius
Will stand by your side
To help you navigate
This abyss oh so wide

911 couldn't stop us
Then the recession so daunting
And now this thing COVID
So unknown and haunting

But friends don't let friends
Go through bad things alone
So if it gets overwhelming
Just pick up your phone

At Socius, we know a few things
More or less
Our goal is to help you
To be a success

So enjoy this small poem
For as long as you dare
We're in this together
Just KNOW that we care!
